

ROAD SAFETY DAYS European Mobility Week

Dodano: September 16, 2020

On 16-22 September 2020, during the European Mobility Week, an action called ROAD SAFETY DAYS will be carried out in all European countries. These activities are coordinated by the European Road Traffic Police Organization ROADPOL and supported, inter alia, by the European Commission and the European Road Safety Council (ETSC).

Road Safety Days are activities of the Road Police and other entities in the field of road safety, aimed at pursuing the assumptions consistent with the ZERO VISION – zero fatalities in road accidents. The key to improving road safety is to a large extent changing the behavior of road users.

Materials on the European Mobility Week are available on the website
